

Quick Guide – Unlocking Your UPMC Network (NTID) Account

Overview

The Identity Management System (IMS) Self-Service Support tools enable UPMC employees to perform specific support-related utilities. For each utility, IMS:

- Identifies the user
- Validates the user's identity
- Authenticates the user's identity through a second independent validation
- Runs the requested utility

The Unlock UPMC Network (NTID) Account utility enables UPMC employees and non-employees to answer specific questions of identification to unlock their NTID accounts. This utility can be used for any NTID account that was locked through repeated attempts to enter an incorrect user ID/password.

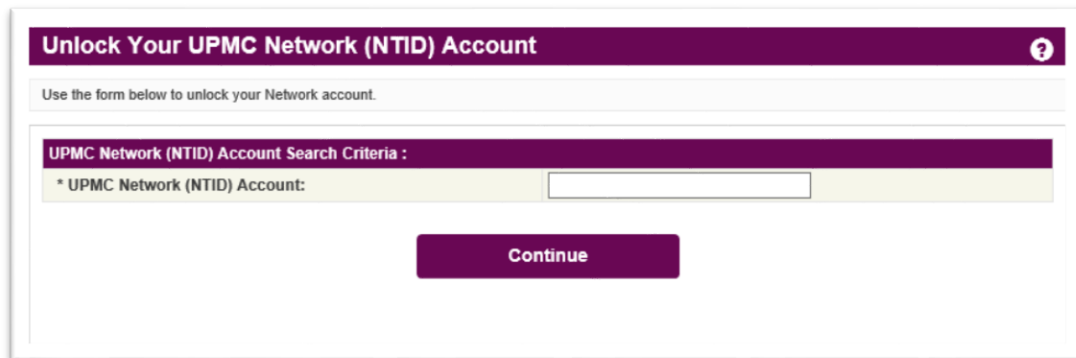

Note: If your NTID account is locked because you forgot your password, follow the instructions in the document [“Quick Guide – Resetting Your UPMC Network Account \(NTID\) Password”](#) to reset it.

You must be registered in IMS to use this utility.

Unlocking Your NTID Password

To unlock your UPMC Network (NTID) password, perform the following:

1. Open **Internet Explorer** and go the IMS website (<https://ims.upmc.com>). *If your account is locked, you must perform this operation from an unlocked machine, such as a co-worker's or your supervisor's.*
2. Click **Password Utility Tools** at the top of the page. This will access the UPMC Password/Account Maintenance Tools window.
3. Choose **Unlock > UPMC Network Account**.
4. Enter your **UPMC Network account ID (NTID)** and click **Continue**.

The screenshot shows a web form titled "Unlock Your UPMC Network (NTID) Account". Below the title is a subtitle: "Use the form below to unlock your Network account." The main section is "UPMC Network (NTID) Account Search Criteria :". It contains a label "* UPMC Network (NTID) Account:" followed by a text input field. Below the input field is a purple "Continue" button.

Note: Only a valid UPMC Network (NTID) Account name will be accepted to run the utility. If you are unsure about the spelling of your NTID Account name, contact the ISD Help Desk at 412-647-HELP (4357).

5. Enter your **date of birth** using the drop-down menu. The utility requires a **valid** date of birth. Select the authorization method you wish to use and then click **Choose Auth. Method**.

Unlock UPMC Network (NTID) Account

To validate your identity, enter your birthdate and choose a method of authentication.

Select your Date of Birth

* Date of Birth (Month/Day/Year): [---] [---] [---]

Authorization Methods

Challenge/Response

SSN/Passport/Visa/Driver's License/ Beacon ID

Choose Auth. Method

- a. If you selected the **Challenge/Response** option, IMS displays your secret challenge question. Answer the question and click **Authenticate**.

Unlock UPMC Network (NTID) Account

Enter your response. Challenge question answers are case-sensitive.

Challenge Question	What is my Last 4 digits of SSN?
Challenge Response	<input checked="" type="radio"/> []

Authenticate

Note: The IMS database is case-sensitive. If you enter an incorrect response three times in a row, IMS locks your account and you must contact the Help Desk for further assistance at 412-647-HELP (4357).

- b. If you selected the **SSN/Passport/Visa/Driver's License/Beacon ID** method of authentication, click the radio button next to the authorization information you wish to use, enter the appropriate number, and then click **Authenticate**.

Unlock UPMC Network (NTID) Account

Enter the number you provided when your accounts were first set up. This response will be used to validate your identity.

Driver's License Number	<input type="radio"/>	<input type="text"/>	State	<input type="text"/>		
Social Security Number	<input type="radio"/>	<input type="text"/>	-	<input type="text"/>	-	<input type="text"/>
Passport Number	<input type="radio"/>	<input type="text"/>				
Visa Number	<input type="radio"/>	<input type="text"/>				
Beacon Identifier	<input type="radio"/>	<input type="text"/>				
MicroSoft ID	<input type="radio"/>	<input type="text"/>				
University Student ID	<input type="radio"/>	<input type="text"/>	College Name:	<input type="text" value="--Select--"/>
